SUNREEF RULES SUPREME REVOLUTIONARY NEW 68 CAT

Cementing its position as the world's leading producer of luxury bespoke catamaran design and manufacture, the Sunreef Yachts shipyard has not rested on its laurels but continues to innovate. From their facilities in the Gdansk shipyard in Poland, they have continuously presented a superb series of sailing and power catamarans with imposing living spaces and innovative design solutions, but with their new Supreme 68 they're writing a new chapter in the annals of sailing and power catamarans.

Conceptualized to respond to a growing demand for more personalized, comfortable and technically advanced units, the new Supreme line embodies a

very specific philosophy of yacht creation. The first unit from the Sunreef Supreme Range presented in Singapore this April will be the Sunreef Supreme 68, a 68' sailing catamaran with a total living space covering almost 3,230sqft (300sqm). Quite a remarkable amount of real estate for a unit of such modest length. Playing their cards close to their chest ahead of the big reveal in April, we have however managed to secure several of renderings of the project, showing an expansive saloon that benefits from sweeping panoramas and an innovative aft transom garage that cleverly conceals not only the jet RIB tender but also a couple of personal watercraft! www.sunreef-yachts.com
